Take part in the next miracle with
MDA's teams and First Responders

MDA Medics Saved Aryeh's Life

What started as chest pains, ended in two successful resuscitations of Aryeh from Beer Sheva. Aryeh is now recovering from a cardiac procedure. Aryeh met the Paramedics who saved him, and thanked them for their efforts.

Aryeh Ackerman was sitting in his home when he started to feel pain in his chest. He immediately called MDA's 101 Emergency Dispatch Center, who sent a first responders and a MICU to his home. While he was being treated by Georgi Yeshayovitch, Aryeh collapsed. He was unresponsive and in cardiac arrest. Georgi and his team immediately began CPR, and after a minute and a half Aryeh's pulse returned. Aryeh was evacuated to the hospital yet, his heart stopped a second time. Aryeh was immediately taken to a cardiac catheterization procedure and is recovering in his home. Georgi and his team were honored to meet Aryeh while he was recovering in the hospital.

Sponsor training, lifesaving equipment, medical supplies and communications equipment for an MDA First Responder for \$4800, and be part of the next miracle.
