

# 8 Miracles for 8 Days

Take part in the next miracle with  
MDA's teams and First Responders

## A Football Practice Gone Wrong

When Elyaniv Barda collapsed during a football practice, it was unclear if he would ever play again. Until the MDA medics arrived and performed CPR and resuscitated him.

Elyaniv Barda has attended many football practices in his life, as the manager of the HaPoel Beer Sheva Team. One day, he found himself unconscious and in cardiac arrest on the field. MDA responded within 2 minutes and began CPR which included medications and administration of 4 electrical shocks from an AED. Barda was evacuated to the hospital with a pulse. His injury was caused when a ball hit him in the chest while travelling at high speeds. Elyaniv has since recovered, but unfortunately his career has ended due to his injury.

Sponsor training, lifesaving equipment, medical supplies and communications equipment for an MDA First Responder for \$4800, and be part of the next miracle.
