

# 8 Miracles for 8 Days

Take part in the next miracle with  
MDA's teams and First Responders

## MDA Gave me the Will to Live

Amit was critically wounded in the terror attack in Har Adar. Following his recovery, he met those who saved him.

Amit's day started as it usually does. He never had reason to suspect that he would fall victim to a terrorist. Amit was saved thanks to the advanced and timely medical care he received. Following the attack, Amit met those who saved him. He recalled: "Here I thought I was going to die, then I saw 'the Angels in White' with the red Star of David on their uniforms. Then I knew I would live". Amit met with the teams who saved him to thank them following his recovery. In addition to meeting the teams, Amit was presented with his own first aid kit, so that he could help save lives.

Sponsor training, lifesaving equipment, medical supplies and communications equipment for an MDA First Responder for \$4800, and be part of the next miracle.
