

8 Miracles for 8 Days

Take part in the next miracle with
MDA's teams and First Responders

“Will I ever ride again?”

Henry Chen, lost his leg in a catastrophic motorcycle accident. Henry met the EMTs and Paramedics who saved his life that night.

Henry was riding his motorcycle when he hit a tree and landed half in the road and half on the sidewalk. Initially, he didn't even realize that he had lost his leg to the accident. All he was concerned about was if he would ever ride again. The team worked tirelessly to try and save not only Henry's life, but his leg as well, in hopes that vascular surgeons would be able to reconnect the vessels. Unfortunately, after 48 hours of surgery, Henry now has a prosthetic. But, most importantly, he is back on the road riding his motorcycle.

Sponsor training, lifesaving equipment, medical supplies and communications equipment for an MDA First Responder for \$4800, and be part of the next miracle.
